

Come learn about online safety – family best practices.

We are looking forward to seeing you!

September 20, 2018 8:00 PM | Daniel High School

Hello Daniel area parents,

It's great to (virtually) meet you. Parenting in the digital age can be stressful, but it doesn't have to stay that way.

We've partnered with thousands of schools to keep millions of students safe online. Now we've made that technology available at home, **exclusively for Securly school families.**

The increase in bullying, self-harm and violence on school campuses challenges all families and school leaders.

We look forward to sharing our tips and best practices for ensuring a safe online experience for your kids, as well as our safety solutions for the home that make the process easy and painless.

SecurlyHome app provides a parent view into your child's internet activity.

Download the **FREE app now!**
