

Dear Parents/Guardians,

The School District of Pickens County is now using **Schoology**, an integrated learning management solution that provides course management, mobile learning, and support for systemwide communication. Schoology enables our students, parents and teachers to engage with learning materials and their school community from the classroom and beyond. We look forward to using Schoology in our classrooms this year to enhance connectivity and communication across our district.

With Schoology, students can digitally submit homework assignments, review grades, participate in interactive discussions, receive announcements and feedback, take tests, write academic blogs, and more. As a parent, you will be able to view your child's activity and receive updates from teachers.

You have been given an access code, which you will find on a label at the top of this letter, to access the SDPC Schoology system. You should have a unique access code for each child you have enrolled in Pickens County schools. We value your participation in your child's education, and we encourage you to read Schoology's Privacy Policy & Terms of Use at <https://www.schoology.com/privacy.php>. Student progress and activity will be monitored by faculty to ensure a safe, secure, and controlled environment.

Attached, you will find information with instructions on how to create, log into, and use your Schoology account. Once you have set up your account, don't forget to download the Schoology App! Search for it in the App Store for Apple devices or in Google Play for Android phones. Once you have set up your account, you can log in to the app to easily view your child's information right from your phone! Login to the app using the email and password you set up when you created your account. The Schoology App is very user-friendly!

If you have questions or feedback regarding Schoology, please contact your child's school.
